RETALIATION

Threatened Senate Insurgents--Duty on Coal, Lumber and Other Southern Products Demanded.

The warfare of the South against New England in the shaping of the tariff bill reached an acute stage Wednesday when Senators Elkins and Scott, of West Virginia, held a conference with members of the House. Among the Representatives present were: Langley, of Kentucky; Hughes, West Virginia; Slem, of Virginia; Humphreys, of Washington; Mondell, of Wyoming; Austin, of Tennessee; and Wheeler, of Pennsylvania. It was decided at this coalition conference that unless the leaders of Congress consent to higher duties on coal and lumber and other products of the South the "insurgents" will retaliate by combining with the Democrats to force down the duties on shoes, cutlery and other products of New England.

Charged With Murder Done Many Years Ago.

Charged with the murder of Rose Tritt, at Sandford, near Terre Haute, Ind., thirty-two years ago, Sylvester Burnham is to be arrested in Texas. He is said to be a wealthy ranch owner. He was a laborer on her father's farm and was madly in love with the girl. She and her family declined to receive him as a suitor. One night he slipped into the girl's room, cut her throat, rolled her body in a carpet and set fire to the house.

Tritt and his wife escaped and the body of their daughter was found in the charred carpet. The laborer disappeared. According to the police he joined the Navy and afterward established himself in Texas.

Sues Wolfe County.

Elias Shockey, an attorney of Hazel Green, brought suit in the Circuit Court against Wolfe county for \$3,000 damages for Joe Culberson, who fell through a wooden bridge across Red river and broke his right leg.

Everybody's friend--Dr. Thomas' Eclectic Oil. Cures toothache, earache, sore throat. Heals cuts, bruises, scalds. Stops any pain.

New High Record for Wheat.

New high record marks for the season for all deliveries of wheat were recorded on the Board of Trade when the May option sold at \$1.20; and the July at \$1.08 per bushel. Reports of damage by "winter killing" to the crop in Ohio and Indiana were largely responsible for the upturn.

Well, He May.

Gov. Willson is hesitating long about pardoning Taylor and Finley before trial. And well he may. The moment he turns them loose from prosecution, for a crime every one knows they knew about and prepared for, he will lose the good opinion of many, who give him credit for sincerity for advocating law.--Hopkinsville Kentuckian.

Funds For Public Buildings.

Money to the amount of \$100,000 may be borrowed by the Secretary of the Treasury on the credit of the United States for the purpose of erecting public buildings, which are authorized by Congress for cities having a population of 5,000 or more people. The bill recently introduced by Senator Scott, of West Virginia, becomes a law. For the purpose the Secretary of the Treasury is authorized to issue 2 per cent. coupons or registered United States bonds. The bonds are to be exempt from taxes.

Chops Off Fowl's Heads.

Mr. Dorsey McClure, Carlisle, Ky., says: "Lumberneck made its appearance in my flock of two hundred White Leghorns. I gave them Bourbon Pottery, Care, after chopping off the heads of six fowls that were unable to walk. I did not lose another fowl." Sold by W. S. Lloyd.

Must Acknowledge Claims.

Because of the alleged practice of railroad companies engaged in interstate commerce of delaying the acknowledgment of claims made against them for overcharges, loss, damage or injury to property committed to their care, and frequently letting the adjustment of claims run into months and years, Senator Taylor, of Tennessee, has introduced a bill providing that carriers shall acknowledge all such claims within ten days from their receipt, and that they shall pay all lawful claims within ninety days from their receipt.

Too Much Tobacco.

A special from Glasgow, Ky., says: "The farmers of this section are giving the following unique warning through the local papers. It says: 'Farmers should not forget that, they cannot eat tobacco or feed it to their stock. If every available acre of land is put in the weed all the organizations on earth cannot hold up the price. Twenty-six States in the Union are now making a desperate struggle to raise all the tobacco they can, to the neglect of corn, wheat, oats, rye, potatoes and all other crops. Corn is high and is easier raised than tobacco, and why that crop should be neglected this year in favor of tobacco is a puzzle. Corn is the staff of life in Kentucky, and people should know that it means much wealth to the State.'"

The Wisconsin Senate defeated the county unit local option bill.

ON TRIAL

FOR KILLING ON HIGH SEAS.

Influential Men Defending Joseph E. Gardner, Kentucky Boy, at San Francisco.

At San Francisco, March 31, Joseph E. Gardner, son of a Kentucky farmer, and a nephew of Judge Edward C. O'Rear, Chief Justice of the Kentucky Court of Appeals, faced a jury in the United States Circuit Court of Appeals on a murder charge. He is accused of killing Joseph Cordoza, a colored boat steerer on the whaler B. W. head, on which young Gardner shipped before the mast, sailing from this port in 1908. The prisoner was represented by attorneys Will A. Young and Henry R. Brewitt, both of Kentucky, sent out by Gardner's father.

The fight which resulted in the death of Cordoza took place in the northern seas, according to witnesses. Alex. Peterson, a member of the Bowhead's crew, stated that Gardner refused to obey an order given by Cordoza, and after hot words, struck the boat steerer with his fist. Cordoza knocked the youth down and beat and kicked him as he lay on the deck. They were separated, but a few minutes later Gardner came up behind Cordoza and struck him over the head with a heavy stick, inflicting injuries which caused death some hours later.

Painters Walk Out When Request Is Refused.

About 40 union painters of Lexington who demanded an increase in their pay from 28 to 39 cents an hour, which was refused by the contractors, walked out Thursday and say they will not return until the raise is given them. The contractors affected by the strike say they will not give the increase and that they have no contracts now that will suffer as the result of the painters' quitting.

Banner Option County.

Henry county, Ind., previously "dry" by remonstrance, Wednesday gave the "dry" forces a majority of 2,516 in a county option election. This is the largest "dry" majority yet given under the county option law.

Object to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by R. H. White & Co., Druggists. 39-41.

Bishop Vincent's Wife Dies.

After an illness extending over two years, Mrs. John H. Vincent, wife of Bishop Vincent, of the Methodist Episcopal Church and Chancellor of Chautauqua Institution, died at her home in Indianapolis, Ind., on March 31.

To Inspect Lumber For New State Capitol Furniture.

Edward Schmiedeknecht, of Louisville, has been commissioned by the State Board of Capitol Commissioners to go to the factory of the Wallaeger Manufacturing Company, at Milwaukee, Wis., and inspect every stick of timber that is put into the furniture for the Kentucky State Capitol.--Louisville Times.

BIBLE SCHOOL CHAIR

Prof. W. F. Smith New Member of Faculty in College of the Bible.

A new chair of Bible School Pedagogy was created at a meeting of the Executive Committee of the College of the Bible on Thursday, and Prof. W. F. Smith, of the Morehead Normal School, was elected to it. Prof. Smith takes his place in September for the session of 1909-10.

The chair of Bible School Pedagogy has been endowed through the joint efforts of the Sunday Schools of the Christian Churches of Kentucky. This is the centennial year of the Christian Church, and the Kentucky Sunday Schools underwent as their memorial this commendable work which has been so satisfactorily completed as to enable the progressive step consummated.

Not only is Prof. Smith well known as one of the ablest educators in the State, but he has also been prominently connected with the Sunday School work throughout Kentucky. His accession is a valuable addition to the already strong faculty of the College of the Bible.

Largest Crop of Tobacco in Years.

Commissioner of Agriculture M. C. Rankin in his first crop report bulletin for 1909, being a statement of conditions throughout the State up to April.

"The percentages for corn and tobacco acreage are prospective. The prospect is for the largest tobacco crop in many years for both Burley and dark, and an average corn crop will be planted."

"Wheat is not as good as last year, but with favorable weather it will make a fair yield."

"Live stock wintered well, and the prices are all fairly good, horses and mules being high. The present prospect is for a good peach crop."

A Sure Cure.

Wm. Manlove Tipton, Ind., says: "I had cholera in my herd and did not lose a hog after giving them Chamberlain's Colic, Cholera and Diarrhoea Remedy. In my judgment this medicine is a sure cure for hog cholera." Sold by W. S. Lloyd.

Will Test New School Law.

At Hopkinsville, Ky., suit was filed by the Christian County Board of Education against County Judge Provise and members of the Fiscal Court, praying for a mandamus forcing them to meet at once and make a tax levy to provide the \$10,000 asked for for the support of schools as provided by the new school law. The Fiscal Court refused to levy the tax, claiming the school law was unconstitutional.

The suit is to test the new law, and is of State-wide importance.

Negro Students Denied.

Two colored students dismissed from Grand Rapids, Mich., veterinary college, following the objection of white students to their presence, were denied a writ of mandamus by the Supreme Court, to compel the college to let them pursue their studies. The court held that a private corporation could not be mandamus to compel it to fulfill obligations under a contract with an individual.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood. 39-41.

DISTRESS FROM UPSET STOMACH.

Also Misery from Indigestion Vanishes 5 Minutes Later.

Take your sour stomach--or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter--take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapensin and let you eat one 22-grain Triangles and see if within five minutes there is left any trace of your stomach trouble.

The correct name for your trouble is Food Fermentation--food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in the bowels, tenderness in the pit of the stomach, bad taste in the mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause--fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapensin. 38-41.

Rheumatism.

More than nine out of ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price 25 cents; large size, 50 cents. Sold by R. H. White & Co., Druggists. 39-41.

HUMBLE BEGINNING

For Distinguished People. One in Civil Affairs and One in Music.

In a humble school-house in the country town of St. Peter, Minn., a little boy and a little girl went to school over twenty-five years ago. They were like most of the other children--sons and daughters of natives of Sweden. The atmosphere of the teacher must have been inspiring, at least to those two; for though their study there marked almost the limits of their education, one of them, Gov. John A. Johnson, of Minnesota, has won the highest honors of his Commonwealth, and the other, Olive Fremstad, has come to be known as the greatest soprano now in the American grand opera.

The fact that she is to appear at the MAY MUSIC FESTIVAL to be held in Louisville May 6, 7 and 8 has added interest to the early struggles of Fremstad, and has shown that to win artistic laurels takes just as much pluck as to win them anywhere else. Her parents were poor, and her musical talent was shown first in teaching. Then finally she took the great step and went to New York without money and without prospects, determined to study music and to win a place somewhere.

Nelson Bishop Pardoned.

Governor Willson on Wednesday granted a pardon to Nelson Bishop, of Morgantown, who was sentenced to serve two years in State prison for voluntary manslaughter. Sentence was passed in June, 1908. Bishop shot and killed D. S. Whitaker.

Bob is About Right.

Commonwealth's Attorney Bob Franklin declined to attend the hearing in the matter of the surety bond of Taylor and Finley, having participated in one favor of the sort. Commonwealth's Attorney Bob is about right. The pardons will be forthcoming, hearings or no hearings, evidence or no evidence, with Youtsey alone to bear the punishment, which, though rightfully falling on him, ought to be shared by the conspirators.--Owensboro Messenger.

Time will reveal whether the pardons come.

Republicans Nominate.

The Republicans of the Eleventh Judicial district met in convention at Lebanon, Ky., and nominated Hon. John W. Lewis, of Springfield, for Circuit Judge, and Hon. J. H. Graham, of Greenburg, for Commonwealth's Attorney.

Democratic State Central Committee Selects Lexington as Permanent Headquarters.

The Democratic State Central Committee met at Lexington on Friday. The most important business was the adoption of a resolution creating a committee to organize the State campaign for the election of members of the Legislature. State Senator Thomas A. Combs was elected Chairman of this committee with power to select the six other members, and Lexington was chosen as the place for the committee's headquarters.

This resolution passed by a vote of 7 to 4. The committee adjourned to meet again in Louisville on April 28 in accordance with the call of Chairman Prewitt. The committee was called to order by R. G. Phillips, secretary. The rollcall showed the following members present: J. W. Pugh, State-at-large; N. Powell Taylor, Second district; T. J. Moore, Fourth; W. O. Head, Fifth; J. A. Donaldson, Sixth; T. A. Combs, Seventh; J. A. Sullivan, Eighth; W. A. Adams, Ninth; Henry M. Cox, Tenth, and Woodson May, Eleventh.

The proxy of W. A. Berry, of the First district was held by W. O. Head, making eleven votes. J. R. Mallory, of the Third district, was absent and it was understood he was opposed to the proposed action of the meeting in the absence of Chairman Prewitt.

W. O. Head, of Louisville then offered a motion that the business be taken up in its regular order. This motion was voted down, but it gave Mr. Head an opportunity to express his objections to the adoption of the resolution. He declared that the proposed action would tend to increase factional differences in the party and urged that action on the resolution be postponed until Chairman Prewitt returned and thus show due dif-

ference to the committee's chairman. The resolution was adopted by a vote of 7 to 4.

"Throw Out the Line!"—The kidneys need help. They're overworked—can't get the poison filtered out of the blood. They're getting worse every minute.

Will you help them? Doan's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair.

Will cure any form of kidney trouble.

W. B. Senior, W. Locust St., Mt. Sterling, Ky., says: "I had more or less trouble with my kidneys for four or five years, which was brought on I think by the paints and varnish in my work. My kidneys were disordered and the passages of the secretions were profuse. That was before I began using Doan's Kidney Pills and since that time I have been entirely free from the annoyances Doan's Kidney Pills all relieved the attacks of backache which had caused me so much suffering. I have procured a good many boxes of Doan's Kidney Pills at F. C. Duerson's drug store and consider it to be the best investment I ever made."

Wesleys Attacked Cow. Horsemen on the farm of H. A. Sell, near Hanover, Pa., noticed a cow in a very peculiar way jumping about and bellowing loudly. Upon investigation they were astonished to find that eight wesleys had attacked her. After a hard fight the farmers succeeded in killing several of the bloodsuckers and scattering the remainder.

\$700,000 Plant to Be Erected.

What is to be the biggest and most modern plow manufacturing plant in the United States and costing in the neighborhood of \$700,000, is to be erected by B. F. Avery & Sons within the present year, at Louisville.

Plans for the new plant have been under way for more than five years, and with this object in view a large tract of land, consisting of thirty-one acres, on the outskirts of the city, purchased last year. According to present plans the buildings to be erected will cover in all about thirteen acres.

The Avery Company was started sixty years ago by B. F. Avery, the father of the present president. It was located in the quarters now occupied by the general offices. It then consisted of but one building. Now the company occupies fifteen, several of which are large structures. The concern is capitalized at \$1,500,000.

Uncle Sam as a Banker.

Uncle Sam is a right considerable banker even though the postal savings bank scheme has not been adopted by the Congress.

There are in Louisville many persons who deposit their money with the Government, though they do not receive any interest on their deposits.

They buy money orders made payable to themselves, and money orders are good for seven years, where they are specially designated as savings. Ordinarily money orders are good for one year, after which it is necessary to get them cashed from the Treasury at Washington.

Postmaster Woods said that in one year in the United States as much as \$8,000,000 was deposited by timid persons, with the Government. The deposits are made mostly by the immigrant classes in large cities.—Louisville Times.

GRIPPE VICTIM

Restored to Health and Strength by Vinol After All Other Means Had Failed.

PROFESSOR HICKS' STORY.

"I suffered from a severe attack of the grippé which left me in a weakened condition with bronchitis, a soreness in my chest and a hacking cough. I tried different physicians and took nearly every kind of cough syrup sold on the market without getting any permanent relief. I saw your cod liver and iron preparation—Vinol—advertised, and decided to try it, and it completely cured my bronchial trouble and restored my strength. I cannot say too much for Vinol, as I received inexpressible benefit from its use, and I consider it one of the greatest blessings ever offered to the public." R. E. R. Hicks, Maplesville, Ala.

The grippé invariably leaves in its wake a weakened, run-down condition of the system. Vinol is guaranteed to restore the sufferer to health and strength, and to build up and create strength for old people, delicate children and weak, debilitated people. So sure are we of this that we unhesitatingly say give Vinol a trial. If you think it does you no good we will refund your money, but it will. W. S. Lloyd, Druggist, Mt. Sterling.

After Kansas City, Kan., had enjoyed enforced prohibition for less than ninety days the public schools reopened for the fall term and the officials were compelled to employ eighteen teachers to care for nearly 400 boys and girls from 12 to 18 years of age who came to school for the first time. Most of them had been unable to attend before because they were obliged to help their drunken parents make a living for the families.

Countryman Comes to Town But is Not Up-to-Date.

"Have you ever noticed that country people aren't so green as they used to be?" asked a countryman who had suddenly become rich of a city friend as they walked along the city street.

"I guess you're right," said the city one.

"Sure," said the countryman. "Now, with me, for instance, I come to town so often that I feel just as much at home here as I do down on the farm. No one would ever guess when I get on my city clothes that I lived in the country."

The two continued to walk until they reached the building, in which the office of the city man was located. They stepped in the elevator and the city man told the elevator man to stop at the fifteenth floor. Unconsciously he reached in his pocket for the keys to his office. The countryman, wishing to demonstrate his lack of greenness, saw the city man put his hand in his pocket. Quick as a flash he went into his own and pulled out a fist full of money.

"Never mind," said the countryman. "You're not going to buy anything. I'll just pay this fare myself."

People Demand a Square Deal.

Judge Lassing, of the Court of Appeals, was in Newport Wednesday at the matter of settling committee contests in Kenton. He said:

"The trouble with Pugh is, he wants the State Central Committee to do something for him personally. He should have gone out and made his fight before the people. You have got to give the people a square deal in politics nowadays. Many a good man has lost out by not doing so."

"The square deal proposition is what the rank and file of the party want, and it is folly on any leader's part to deny it."

Where Cats Are Welcome.

The good Arab is said to be worshipful with regard to the cat, as much as a part of the household as any of the members. The Egyptians seemed to think the cat very important to happiness, and Boston can see no good in that class of society that is talking about the cat as a breeder of disease and a destroyer of birds, and to be tolerated.

STOMACH AGONY

Abolish the Cause, and Misery and Distress of Indigestion Will Vanish.

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness, sour stomach, fullness, nausea, shortness of breath, nervousness, bad taste in mouth, foul breath and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-o-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to W. S. Lloyd's drug store this very day and get a large box of Mi-o-na tablets.

The price of Mi-o-na tablets is only 50 cents, and W. S. Lloyd guarantees them to cure indigestion, or money back.

Thin, lean or scrawny people will find in Mi-o-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food.

Offers Reward for Forger.

The Lexington Herald recently published a communication signed "Stephen Foster," which purported to show the ill effects of local option in Midway. It proves to have been a forgery and the Herald offers a reward of \$100 for the discovery of the perpetrator. The Herald says:

"There is we hope, as little need for us to express the profound regret and chargin we feel at having been led into what now seems the inexcusable error of publishing that first communication. It was taken to be a bona fide communication by a responsible citizen."

We hope the author of it may be discovered and punished. If discovered he will be punished by having his identity made public, and we trust further, by being sent to the penitentiary, though we are not certain as yet whether the act he committed was in law a crime, though it is a crime in morals blacker than many for which the law prescribes a penalty.

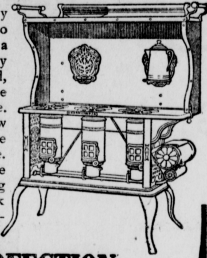

"The original communication has been sent to the Hon. Robert B. Franklin, Commonwealth's Attorney for the district in which is Woodford county, with the request that he bring the matter to the attention of the grand jury. We now offer a reward of \$100 for the discovery and conviction of the author of the communication, or as to justify us in publishing his name."

"We do this not only through our desire to expiate as far as may be the offense we committed against the good people of Midway, but to protect ourselves from any other racial of similar caliber."

Naturalization Required. A residence of at least five years is required to qualify an alien for naturalization. No matter how long a man may have been in the United States, two years must elapse between the date of his declaration of intention and his admittance to full citizenship.

Put This Stove in Your Kitchen

It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days. The

NEW PERFECTION

Wick Blue Flame Oil Cook-Stove

is so constructed that it does not add perceptibly to the heat of a room. It differs from all other oil stoves in its substantial CABINET TOP, with shelf for warming plates and keeping cooked food hot, and drop shelves for holding small cooking utensils. Has every convenience, even to bars for towels. Three sizes. With or without Cabinet Top. If not with your dealer, write our nearest agency.

Winchester to Have New Depot Building.

Among the many improvements that the Lexington & Eastern Railway Company will make along their road between Lexington and Jackson will be the erection of a handsome new passenger depot at Winchester.

The plans are now being prepared and will be complete in about a month when work on the new building will commence.

The new building will be of concrete and brick, and modern in construction, and when completed will be the finest on the road outside of Lexington.

The present one at Winchester is rather old and dilapidated and the Commercial Club of that place has made numerous requests for a new one which will be granted in a short time.

Must State "Where They Are At."

The temperance question will be the prominent feature in the Legislature races throughout the State, and every candidate will be made to state how he will vote on this important question, if elected. The Sun is not in politics, but we want it understood that we are on the side of temperance, and if any candidate bobs up for the Legislature in this district who does not favor the county unit law the Sun will do everything in its power to compass his defeat. —Pineville Sun.

The Candidate.

The Columbia Spectator prints the following humorous "take off" on the candidates for public office: "A candidate for office in Adair county at this time is of but few days and full of activity. He has experiences that are as varied as they are interesting.

"He rises up early in the morning and grappeth the hard of his neighbor over the back yard fence and inquireth the condition of the health of the family over the way. He eateth his breakfast in almost three minutes and maketh a grand rush to the public square, and after he hath canvassed the town a dozen times and smetheth hands with all those who meeteth he getteth his saddlebags out of the closet and inserteth the proper producer of enthusiasm in each side and mounteth his bronco and taketh around the back alley and getteth out of town in a hurry and maketh a bee line for the highways and the hedges; every man he meeteth on the road be shaketh by the hand, his soul becometh through his countenance and he inquireth as to the health of the housewife, how the baby's whooping cough is getting along and how much crop he intends to put in this year."

Refute to Stay Down, Says the Philosopher of Folly: "That man succeeds who, when he gets the worst of it, always tries to make the best of it."

Must Account for State Guard (Property).

Civil and perhaps penal action before a court-martial is in store for several officers and men in the Kentucky State Guards unless they make restitution to the State for property which was allotted to them and for which no accounting has been made.

Biscee Hindman, formerly Colonel of the First Kentucky Infantry, has settled with the State for a revolver that he lost while at the encampment in Paducah several years ago. He was charged up with the revolver and turned in an affidavit showing that the weapon was stolen from him while he was at supper in the camp. The War Department at Washington refused to accept this as an excuse and charged up the State with the cost of the revolver, \$11.60, and the State went after Col. Hindman, who has settled in full.

Adjutant General P. P. Johnston will proceed to require a full and complete settlement from every member of the guard of all property which was assigned, and if the property itself is not returned then payment must be made.

Be Concise. Sabbath thought. The greatest sermon that was ever preached anywhere contains only 266 words.

After a heavy meal, take a couple of Doan's Regulents, and give your stomach, liver and bowels the help they will need. Regulents bring easy, regular passages of the bowels. 39-41.

A Peril Escaped.

So, after all, no attempt was made on the life of Theodore Roosevelt as he sailed the placid seas toward Italy. It was not likely that anybody on board the ship would dare such a thing.

For a helpless, deluded individual to try to take the life of Mr. Roosevelt at any time would be a most otiose matter, but for him to attempt it at the moment when Roosevelt was on his way to catch lions, boa-constrictors, rhinoceroses and hippopotamuses and other pachydermatic mammals of wild and woosy Africa would be to invite instant death. Oldsbliss! What human could be so foolish as to risk it?

A glare of the eye, a gnashing of teeth, a churning of anger and the like on the part of Theodore, and it would all be over with the poor, trembling thing that had come to kill him. "How darest thou even think of killing me. Get thee gone, and if ever thou tryest to kill me again I'll hold a lion with my right hand and push thee down his throat with my left." We are glad to know that no effort was made on Mr. Roosevelt's life.

It Costs Nothing

To find out for a certainty whether or not your heart is affected. One person in four has a weak heart; it may be you. If so, you should know it now, and save serious consequences. If you have short breath, fluttering, palpitation, hungry spells, hot flushes; if you cannot lie on left side; if you have fainting or smothering spells, pain around heart, in side and arms, your heart is weak, and perhaps diseased. Dr. Miller Heart Cure will relieve you. Try a bottle, and see how quickly your condition will improve.

"About a year ago I wrote to the Miles Medical Co. asking advice, as I was suffering with heart trouble, and for two years. I had pain in my heart, back and left side, and had been unable to draw a deep breath for two years. Any little exertion would cause me to feel as if I could not lie on my left side without suffering. They sent me a bottle of Miles Heart Cure and, lo! I was better than I ever was before. I have gained good health and am now taking it. I took about thirteen bottles of the two medicines, and haven't been bothered with my heart since."

MILES MEDICAL CO., ELKHART, IND.

Dr. Miller Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Barbarous English Custom.

Boys in the west of England believe that by squeezing a mole to death between the hands and touching the affected parts with the blood that oozes from the mouth of the dying animal they will disappear and will not reappear. The culprits are convinced that moles, worms and other similar creatures have feelings, and therefore, it is not expedient to put them to death in this way.

Itching, torturing skin eruptions, disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. At any drug store 50c. 39-41.

Merely a Suggestion.

During the dinner hour on board a steamer the other day a passenger was much disturbed by the vulgar way in which the man who sat next to him ate his meat. At last after watching him pick a bone in a very primitive fashion, he could control his feelings no longer and, turning to the offending party, he said: "Don't you think you would be more comfortable if you took that out on the table?"—THE BELL.

National Conversations.

If you see three men standing together on the sidewalk in any given country, you can guess the subject of their conversation. In Germany it is the army; in Russia the bureaucracy; in France women; in the United States, however, it is the baseball sport and in Turkey, nothing at all.—La Deniere Heure, Brussels.

PUT HAPPY END TO QUARREL.

Tactful Act That Reconciled Old Friends Long Parted.

The passenger on the car looked slightly alarmed. Investigation was proving that he had no smaller change than a five-dollar bill. He offered it to the conductor in vain.

"Don't make any change," said the conductor, reaching for the bill rope.

The passenger stood motionless for the door. A man out of him stood up suddenly and said: "Let me pay your fare for you."

The other passengers looked relieved, and the conductor, accepting the happy offer, looked dazedly at the passenger, to his surprise.

The observers, who evidently would have been glad to see the favor had not the other man instantly closed his deal with the conductor, in spite of John's protest, all the time keeping up a low conversation with John.

The second fellow, it was John's brow, and soon the two men were seated side by side, chatting contentedly.

After John left the car, the stranger betook himself to the platform with his change, where he explained to the conductor.

"That man and I used to be good friends, but we had a quarrel and have not been on speaking terms for years. I have tried several times in various ways to make it up with him, but never before have succeeded. Even this time he was elaborate at first, but I didn't give him any chance to go away. He has promised to take lunch with me today, and that will clinch the matter. And you didn't make the change."

SEE END OF MAN'S DOMINION.

White Men Settled by Four Women Over the Tea Table.

The women, taking their tea by the city window, talked.

"They have a girl promoter at the 'Gaiety Theater' said one. The man, who told us just now that he had none but women promoters after their first, clear voices carry so beautifully across the stage, while at the same time they are quite masculine in the undertone."

"Of course," said another. "In teaching my living language, too, a woman is incomparably better than a man. A man has a thick guttural voice. His words are all mumbled and jumbled, and a woman's clear delivery is a clear voice—gives every syllable its just value. In studying French or German or Italian, choose a woman, and your progress will be easier and faster."

"Newcomer horses," said a third, "the one who is so spirited and gentle. Do you know why? Because it is the woman, the farm women, who break them. They make pets of them; they tell us to stroke their heads and follow them about like dogs. After that their breaking is easy. It is only done by kindness. And the result is that Newcomer horses have the best dispositions in the world."

A fourth woman settled the whole matter.

"As mental power means muscular power," she said, "woman, save in such immediately brutal vocations as surgery or fistioning, will supersede man as long as the line."

Why Streams Are Disappearing.

Anger who has reached the age of 75 has noticed the disappearance of the small brooks which he played in his district school days, while larger ones have shrunk to slender threads, and rivers that filled their banks all the way are hardly more than rivulets in summer. Commissioner Whipple of New York state tells us that the Erie Hudson in its present of 1907, had no more than two inches of water where it used to roll a heavy volume. There is substantial agreement that this change has been due to the denudation of our hills and valleys of the waterholding trees. It takes a century to grow such forests as we found covering the continent; it has taken half a century to destroy them.—The Independent.

The Bread and Pipe Baker.

The lecturer at the cooking school sometimes enlivened her remarks with an anecdote.

"The eighteenth century baker," she said, "was a pipe-cleaner as well, just as the barber a little earlier was a surgeon."

Everybody in those days smoked clay pipes, provided, of course, with a bowl, and the same as cups or spoons, by the coffee houses. Well, each morning a waiter carried his master's stock of pipes—some hundred perhaps—to the nearest bakery. The baker would boil them out, then dip them in liquid lime, then bake them dry. "They came out of the oven as sweet and white as snow."

Disraeli Among the Lords.

Disraeli was a past master of the art of flattery. His audacity carried him out of danger. Soon after his elevation to the house of lords he was asked by a brother peer how he felt in his new surroundings. "Oh, don't ask me," he growled; "dead and buried."

Then remembering that his question was of the company which he was contemplating, he added, "and in the realm of the blessed!"

Resentment.

"Does you charge 20 cents for that little box of strawberries?" asked Aunt Hannah, superciliously.

"Yes," answered the grocer. "An it 'ud take about a thousand of dem berries to make one tea-cupful of ternelion! I don't mind de price, but I does hate sech impudence!"

OUR APPORTIONMENT.

Christian Church Bible Schools
Montgomery County, Ky.

Attention! \$25,000 to endow a Chair of Pedagogy in College of the Bible is our special centennial enterprise. We of this county are asked to give of this amount at least \$340. Will we do it? Is there any so disloyal to our great college that has been so loyal, and the Christ who has done all for us, as to say "never!"

The Christian Church Bible Schools of the county are Mt. Sterling, Somerset, Camargo, Peytons Lick, Corinth, and Antioch. Will these schools give this amount? We earnestly call upon each school to do its part. Will not the pupils, the teachers, the officers of these schools take hold of this matter in real earnest? This is a time when real christian men and women are needed. What are you? Somerset and Camargo will each raise its apportionment. Who will be next to say as much?

In His name,

Wm. H. Cord,
County President.

91 Majority.

In the Clark county, O., (including Springfield) local option election the majority was 91 (instead of 11 as reported) for the "drys." Total vote, 17,459 or 458 more than was cast in the Presidential election.

Real Estate.

H. Clay McKee has for sale and rent, dwellings, business property, farms, vacant lots. 31-41

The Supreme Court of Virginia has declared the local option election held in Fredericksburg last May valid. This is the first time Fredericksburg has been "dry" in its history.

Costly Popularity.

France's cruiser Lege, Gambetta, is named after the famous politician who died on December 31, 1882. In the times of his intense popularity Gambetta had an experience which he was wont to tell against himself. In Paris admirers unhooked his horses and dragged the carriage to his house. Gambetta would narrate this with an air of pride, and he would add, with a smile: "But I never saw my horses again!"

New Holland Tramway System. The Dutch government has granted a concession to the Amsterdam & North Holland Tramway Company to build and operate an electric railway system in Holland. The route will be nearly 10 kilometers, running from Amsterdam north through Zaandam, a Krompenille, from Zaandijk to Wyk aan Zee, and Wormerveer to Purmerend. The Holland Development Company of Amsterdam will build the entire system.

Not Like a Hen.

"The female codfish," remarked the boarder who had been gleaming statistics from between the covers of a patent medicine almanac, "lays more than a million eggs. Now, what do you think of that?" "I think," rejoined the Cheerful Idiot, "that it's a mighty lucky thing for the codfish that she doesn't have to cackle over every egg!"

Confusion of Poisons.

The Russians may make a mistake in putting a skull-and-cross-bones label on bottles of vodka. They will teach the simple peasant, who cannot read, to look for the poison label when he is thirsty, and who can tell how much carbolic acid, vitriol and such deadly drugs will be taken in the guise of the other poison?

Forcing the Child.

Do not force a child unduly to practice the piano, lest it acquire a distaste for the study, which both child and parent may bitterly regret in later years, says Woman's Life. It is little short of a crime to compel any form of study in a child even though it happens to have a natural talent for a particular art.

Tribute to Womanhood.

Womanhood is the most sacred thing in life. When God made worlds, and spun from His Raggers like jewels on a string planets and systems of planets, and then had called the various forms of His living creatures into being, even after He had made man, the last and greatest creative act he performed was to create woman. Exchange

\$3,000, to the Bad.

The Winchester Sun Sentinel for the current week contains the following news item that ought to interest the taxpayers of Fayette county:

The Clark County Fiscal Court was in session nearly all of Friday morning. The first matter transacted was the election of a treasurer. The bids of the banks were opened and the Winchester Bank was the best and it was elected. The bid was \$2,035. There was sharp bidding for the treasurer-ship. The Peoples Bank offered \$1,503; the Citizens' National, \$1,531; the Clark County National, \$1,890.

Fayette county, with several times the population and wealth of Clark county, and presumably has more funds to handle, pays a salary of \$1,000 a year to its County Treasurer, while its more modest neighbor receives over \$2,000 a year for the privilege of carrying the county's funds, a net loss to our taxpayers of over \$3,000.—Lexington Leader

Waterproof Shingles.

Shingles are now made under a patented process from asbestos fiber and Portland cement. Owing to the enormous pressure under which the shingles are manufactured, it is said that they absorb, when fresh, only about five per cent. of their weight of water; and when exposed to the atmosphere for a year or two that hydration and subsequent crystallization make them absolutely impervious.

Adonis in Hard Luck.

A man once asked Thackeray to lend him five shillings, which he would convert into £20,000. Asked how, he explained that he knew a young lady with £20,000 who he knew would marry him if he asked her, but he had pawned his teeth, and wanted five shillings to redeem them in order to propose effectively. — T. F. Weekly.

Modern Man and Charms.

Many a hard-headed business man will stop to pick up a cast horseshoe or a "lucky" farthing, and is not a bit ashamed of the funds, but pockets them with great satisfaction, comments the London Crown. It is a fact that civilization has not improved us much in relation to our quaint beliefs, and charms and amulets are collectable and interesting curios.

Wise Rats.

The depredation of rats in his chicken yard caused Harry A. Lehr of York, Pa., to spread rat poison beneath the floor of his chicken coop. Instead of eating the poison the rats removed it to different parts of the yard. The next morning it was eaten by the fowls, as a result of which Mr. Lehr's flock of chickens is largely decreased.

The First Encyclopedia.

The honor of first bringing a dictionary of general knowledge into alphabetical order belongs to Ephraim Chambers, an English Quaker, whose taste for literature was acquired in a globe-maker's studio; he stole the time belonging to his master to compose behind the shop counter the encyclopedia published in 1727.—American Review of Reviews.

Harm Done by Wrong Food.

A New York skin specialist says: "Had I to choose between the cook and the apothecary as a collaborer, I think I would not hesitate for a moment to yoke myself with the former." He goes on to say that "the board kills more than the sword." Many people eat not only the wrong foods, but too much of them.

RELIGIOUS

There will be special music and appropriate services in commemoration of Easter at the Methodist Church on Sunday, both morning and night. The choir has been at work on its Easter music for some time and will have some new and beautiful numbers.

Rev. E. L. Southgate, D. D., Presiding Elder of the Lexington District, preached at the Methodist church on Sunday morning and night. Dr. Southgate was pastor of this church thirty years ago, and his coming is always an event in the life of the church.

The C. W. B. M. and Bible Schools of the Eighth District including Bath, Bourbon, Clark, Harrison, Nicholas and Montgomery meets at Paris on April 22 and 23. The missionary work occupies the first day followed at night by two addresses. We hope many schools will be represented on the second day.

On Friday afternoon at 4 o'clock, the anniversary of the crucifixion of our Lord will be observed by the celebration of the Holy Communion at the Methodist church. Good Friday is one of the days of the church year that is full of suggestion and its annual observance is well nigh universal by the Christian churches of the world. It is greatly desired that all members of the church be present at this solemn and impressive celebration and that silence and self examination be observed by all who come. A cordial invitation is extended to all christian people to be present and share in this means of grace with their Methodist friends.

No Mustaches in Alaska. Mustaches are not worn by men exposed to the severity of an Alaskan winter. They wear full boards to protect the throat and face, but keep the upper lip clean shaven. The moisture from the breath congeals so quickly that a mustache becomes imbedded in a solid cake of ice, and the face is frozen in a short time.

U. S. Supreme Court Decisions.

The U. S. Supreme Court has decided that the Kentucky Railroad Commission has no right to fix rates on inter-state shipments. The rates fixed by the Commission were from 20 to 25 per cent. lower than rates fixed by the four companies involved, L. & N. Illinois Central, Southern and Q. & C. The Court also decided that Kentucky could not tax foreign warehouse receipts for Kentucky whisky shipped to Germany for the purpose of avoiding payment of State taxes thereon.

Sellinger, of Louisville, shipped 8,000 barrels to Germany to avoid the State tax.
